

Coverage Summary for Commercial Equine Liability

You should consider **Commercial Equine Liability coverage** if your horse business involves boarding, training, breeding, riding instruction, shows, clinics etc. This coverage will protect you in case someone is injured or their property is damaged as a result of your horse business activities; for example – a horse kicks someone at a show; a horse gets loose, runs into the road and gets hit by a vehicle resulting in damage to the vehicle and possible injury to the occupants; a rider is thrown and injured during a riding lesson. Limits of liability are available from \$300,000.- \$1,000,000.

NOTE: A special feature of this liability policy is that it pays all legal costs associated with a claim or lawsuit in addition to the limit of liability shown on the policy.
